soft touch

ergonomic

Grazie alla doppia dentatura della sua lama di acciaio inossidabile e al pratico sistema di rotazione, lo slanatore è efficace per mantelli fitti oppure ruvidi ed anche per mantelli fini. È dotato di una pratica impugnatura ergonomica "Soft-touch" che rende l'uso ancor più confortevole.

Rimuovendo con delicatezza il sottopelo in eccesso e abbattendo quindi lo spargimento di peli rispetto alle normali spazzole e pettini, vi aiuterà anche a rendere la vostra casa un ambiente più sano, particolarmente per chi soffre di allergie.

This Shedding blade removes moulting and loose hair in your pet's thick, wire or fine coat thanks to its double-toothed stainless steel blade and to its convenient rotating system. The soft grip ergonomic handle makes safe in your hand and easier to work with.

It removes loose hair and excess undercoat better than any brush, rake or comb. It prevents shedding and keeps your house cleaner and healthier especially for allergic family members.
